

## Micro Ring Hair Extensions in London

### 'Advance MicroBonds'<sup>™</sup>

KIRILL is the originator of 'Advance MicroBonds'<sup>™</sup>, the world's safest, most reliable and weightless method for attaching permanent hair extensions. A breakthrough alternative to conventional Micro Loops and Micro Rings, 'Advance MicroBonds'<sup>™</sup> are exclusive to Hair Extensions by KIRILL.

### What makes 'Advance MicroBonds'<sup>™</sup> different?

Unlike conventional hair extensions, which are affixed using glues, braiding or sewing, KIRILL secures his hair extensions using precision-engineered rings called 'Advance MicroBonds'<sup>™</sup>. The process is quick and easy and will not damage your hair or irritate your scalp.

'Advance MicroBonds'<sup>™</sup> last for up to three months - and even longer with the correct care and maintenance - and can be affixed securely to all types of hair, however fine, thin, or damaged. The attachments are so small they are virtually invisible, and are indistinguishable from your own hair. Unlike other hair extension systems, they can be applied undetected to any area of the head including the temples, mid scalp and forehead.

- No need for glues chemicals or heat; no braiding or sewing - will not damage your own hair
- Quick and easy to apply to the hair with no pulling or stress
- Extended hair is securely attached - will not shed or slip out
- Looks and feels completely natural - indistinguishable from your own hair
- 100% natural human hair - easy to wash, style, colour and perm
- Electro-plated, precision-engineered micro-sized rings match the colour of your hair
- Virtually invisible – links are totally flat and blend undetectably with your extended hair
- Fast removal without the need for solvents

"I will give you beautiful hair, expertly tailored and individually created especially for you. It's stylish, sexy and completely safe..." KIRILL
